SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier
Product form : Mixture
Trade name : John Deere Cool-Gard™ II Premix
Product code : TY26575, TY26576, TY26577, TY26578

1.2. Relevant identified uses of the substance or mixture and uses advised against
Use of the substance/mixture : Engine Coolant and Anti-freeze

1.3. Details of the supplier of the safety data sheet
MANUFACTURER:
Northland Products
1000 Rainbow Drive
Waterloo, IA 50704
Tel: +1-319-234-5585
+1-800-772-1724

SUPPLIER:
Deere & Company
One John Deere Place
Moline, IL 61265

1.4. Emergency telephone number
Emergency number : Chemtrec 1-800-424-9300
Chemtrec (Outside USA) +1 703-527-3887 (24 hours)
Supplier: +1-309-748-5636 (24 hours)

SECTION 2: Hazards identification

2.1. Classification of the substance or mixture
GHS-US classification
Acute Tox. 4 (Oral) H302
Skin Irrit. 2 H315
Eye Irrit. 2A H319
STOT RE 2 H373

2.2. Label elements
GHS-US labelling
Hazard pictograms (GHS-US) : GHS27 GHS28

Signal word (GHS-US) : Warning
Hazard statements (GHS-US) : H302 - Harmful if swallowed
H315 - Causes skin irritation
H319 - Causes serious eye irritation
H373 - May cause damage to organs (kidneys) through prolonged or repeated exposure (oral)

Precautionary statements (GHS-US) : P260 - Do not breathe dust, fume, mist, spray, vapours
P264 - Wash hands thoroughly after handling
P270 - Do not eat, drink or smoke when using this product
P280 - Wear protective gloves, eye protection, protective clothing
P301+P312 - If swallowed: Call a doctor, a POISON CENTER if you feel unwell
P302+P352 - If on skin: Wash with plenty of water
P305+P351+P338 - If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing
P314 - Get medical advice/attention if you feel unwell
P321 - Specific treatment (see on this label)
P330 - Rinse mouth
P332+P313 - If skin irritation occurs: Get medical advice/attention
P337+P313 - If eye irritation persists: get medical advice/attention
P362 - Take off contaminated clothing and wash before reuse
P501 - Dispose of contents/container to comply with applicable local, national and international regulation.
2.3. Other hazards

Other hazards which do not result in classification: Spills of this product present a serious slipping hazard.

2.4. Unknown acute toxicity (GHS-US)

No data available

SECTION 3: Composition/information on ingredients

3.1. Substance

Not applicable

Full text of H-phrases: see section 16

3.2. Mixture

SECTION 4: First aid measures

4.1. Description of first aid measures

First-aid measures general: Never give anything by mouth to an unconscious person. If you feel unwell, seek medical advice (show the label where possible).

First-aid measures after inhalation: Remove victim to fresh air and keep at rest in a position comfortable for breathing. Assure fresh air breathing. If breathing is difficult, give oxygen. In all cases of doubt, or when symptoms persist, seek medical advice.

First-aid measures after skin contact: Rinse and then wash skin thoroughly with water and soap. If skin irritation occurs: Get medical advice/attention. Wash contaminated clothing before reuse.

First-aid measures after eye contact: In case of contact with eyes, rinse immediately with plenty of flowing water for 10 to 15 minutes holding eyelids apart. Subsequently consult an ophthalmologist. Remove contact lenses, if present and easy to do. Continue rinsing. If redness, burning, blurred vision or swelling occurs, transport to nearest medical facility for additional treatment. Get medical advice/attention.

First-aid measures after ingestion: If swallowed, rinse mouth with water (only if the person is conscious). Immediately call a POISON CENTER or doctor/physician. Do NOT induce vomiting. If vomiting occurs naturally, have victim lean forward to reduce risk of aspiration. Obtain emergency medical attention.

4.2. Most important symptoms and effects, both acute and delayed

Symptoms/injuries: Causes damage to organs (kidneys) (Oral).

Symptoms/injuries after inhalation: Long-term (repeated). Inhalation of mist or aerosol may cause irritation to nose and throat.

Symptoms/injuries after skin contact: Causes skin irritation.

Symptoms/injuries after eye contact: Causes serious eye irritation. Swelling and inflammation.

Symptoms/injuries after ingestion: May be harmful if swallowed. Ingestion may cause nausea and vomiting. Depression of the central nervous system, headaches, dizziness, drowsiness, loss of coordination. In the case of extreme exposure there is a risk of severe metabolic acidosis and haemorrhagy. Death in extreme cases. Symptoms may be delayed.

4.3. Indication of any immediate medical attention and special treatment needed

Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled. Symptoms may be delayed.

SECTION 5: Firefighting measures

5.1. Extinguishing media

Unsuitable extinguishing media: Do not use a water jet since it may cause the fire to spread.

5.2. Special hazards arising from the substance or mixture

Fire hazard: When heated above the flash point, releases vapours. Gas/vapours, flammable.

Explosion hazard: Heat may build pressure, rupturing closed containers, spreading fire and increasing risk of burns and injuries.

5.3. Advice for firefighters

Precautionary measures fire: Stop and contain spill/release if it can be done safely. If this cannot be done, allow fire to burn under control. Gases/vapours, toxic.

Firefighting instructions: Exercise caution when fighting any chemical fire. Do not use direct water stream; may spread fire. Burning liquids may be moved by flushing with water to protect personnel and minimize property damage. Heat may build pressure, rupturing closed containers, spreading fire and increasing risk of burns and injuries. Cool closed containers exposed to fire with water spray. Prevent fire-fighting water from entering environment.
John Deere Cool-Gard™ II Premix
Safety Data Sheet
according to the federal final rule of hazard communication revised on 2012 (HazCom 2012)

Protective equipment for firefighters: Wear approved self-contained breathing apparatus (set on positive pressure mode). Do not enter fire area without proper protective equipment, including respiratory protection.

Other information: Special danger of slipping by leaking/spilling product. Most vapors are heavier than air. They will spread along ground and collect in low or confined areas (sewers, basements, tanks).

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

General measures: Spilled material may present a slipping hazard. Stop leak if safe to do so. Eliminate all ignition sources if safe to do so.

6.1.1. For non-emergency personnel

Emergency procedures: Evacuate unnecessary personnel.

6.1.2. For emergency responders

Protective equipment: Equip cleanup crew with proper protection.

Emergency procedures: Ensure adequate ventilation, especially in confined areas.

6.2. Environmental precautions

Prevent contamination of soil, drains and surface waters. Prevent entry to sewers and public waters. Notify authorities if liquid enters sewers or public waters.

6.3. Methods and material for containment and cleaning up

Methods for cleaning up: Approach from upwind. For small spills, absorb or cover with dry earth, sand, or other inert non-combustible absorbent material and place into waste containers for later disposal. Gather the product and place it in a spare container that has been suitably labelled. Consult the appropriate authorities about waste disposal. Large spills: Contain large spills to maximize product recovery or disposal. Soak up spills with inert solids, such as clay or diatomaceous earth as soon as possible. Collect spillage. Shovel into suitable and closed container for disposal. Minimize generation of dust. Store away from other materials. Ensure all national/local regulations are observed.

6.4. Reference to other sections

See Heading 8. Exposure controls and personal protection.

SECTION 7: Handling and storage

7.1. Precautions for safe handling

Additional hazards when processed: Special danger of slipping by leaking/spilling product.

Precautions for safe handling: Avoid contact with skin, eyes and clothes. Avoid breathing dust/fume/gas/mist/vapours/spray. Provide good ventilation in process area to prevent formation of vapour. Personal protective equipment should be selected based upon the conditions under which this product is handled or used. Empty container retains product residue. Use and store away from all naked flames, heat sources or working electrical appliances. Do not smoke.

Hygiene measures: Contaminated work clothing should not be allowed out of the workplace. Wash contaminated clothing before reuse. Separate working clothes from town clothes. Launder separately. Do not eat, drink or smoke when using this product. Discard contaminated leather articles. Wash hands and other exposed areas with mild soap and water before eating, drinking or smoking and when leaving work.

7.2. Conditions for safe storage, including any incompatibilities

Technical measures: Provide adequate ventilation. A washing facility/water for eye and skin cleaning purposes should be present.

Storage conditions: Keep out of reach of children. Keep container tightly closed. Keep only in the original container in a cool, well-ventilated place away from highly flammable substances. Keep away from open flames, hot surfaces and sources of ignition. Keep out of direct sunlight. Protect from moisture. Containers that have been opened must be carefully resealed and kept upright to prevent leakage.

Incompatible materials: Refer to Section 10 on Incompatible Materials.

Heat and ignition sources: Remove all sources of ignition.

Storage area: Store in dry, cool, well-ventilated area. Keep away from heat and direct sunlight.

7.3. Specific end use(s)

No additional information available

SECTION 8: Exposure controls/personal protection

8.2. Exposure controls

Appropriate engineering controls: A washing facility/water for eye and skin cleaning purposes should be present. Emergency eye wash fountains and safety showers should be available in the immediate vicinity of any potential exposure. Provide exhaust ventilation or other engineering controls to keep the airborne concentrations of mists and/or vapors below the recommended exposure limits. Ensure adequate ventilation.

Personal protective equipment: Avoid all unnecessary exposure. Personal protective equipment should be selected based upon the conditions under which this product is handled or used. For certain operations, additional Personal Protection Equipment (PPE) may be required. Gloves. Protective clothing. Protective goggles.

Hand protection: Wear protective gloves. Nitrile-rubber protective gloves. For special purposes, it is recommended to check the resistance to chemicals of the protective gloves mentioned above together with the supplier of these gloves.

Eye protection: Chemical goggles or safety glasses with side-shields. Eye protection, including both chemical splash goggles and face shield, must be worn when possibility exists for eye contact due to spraying liquid or airborne particles.

Skin and body protection: Chemical resistant suit. Wear rubber boots. Wear suitable protective clothing.

Respiratory protection: Where exposure through inhalation may occur from use, respiratory protection equipment is recommended. Use a properly fitted, air-purifying or air-fed respirator if necessary.

Other information: Do not eat, drink or smoke during use.

9.2. Other information

VOC content : 49.5

SECTION 10: Stability and reactivity

10.1. Reactivity

No additional information available

10.2. Chemical stability

Stable at normal conditions.

10.3. Possibility of hazardous reactions

Not established.

10.4. Conditions to avoid

No additional information available

10.5. Incompatible materials

Oxidizing agents. Strong acids. strong bases. Contact with Aluminium, Zinc and Tin can cause formation of hydrogen that together with air can be an combustible mixture.

10.6. Hazardous decomposition products

SECTION 11: Toxicological information

11.1. Information on toxicological effects

John Deere Cool-Gard™ II Premix

ATE CLP (oral) 500.000 mg/kg bodyweight

Ethylene glycol (107-21-1)

LD50 oral rat 4000 mg/kg

LD50 dermal rabbit 9530 µl/kg

ATE CLP (oral) 500.000 mg/kg

Sodium tetraborate decahydrate (1303-96-4)

LD50 oral rat 2660 mg/kg

Sodium hydroxide (1310-73-2)

LD50 dermal rabbit 1350 mg/kg

ATE CLP (dermal) 1350.000 mg/kg bodyweight

Skin corrosion/irritation : Causes skin irritation.

pH: 7.8 - 8.5

Serious eye damage/irritation : Causes serious eye irritation.

pH: 7.8 - 8.5

Respiratory or skin sensitisation : Not classified (Based on available data, the classification criteria are not met)

Germ cell mutagenicity : Not classified (Based on available data, the classification criteria are not met)

Carcinogenicity : Not classified (Based on available data, the classification criteria are not met)

Reproductive toxicity : Not classified (Conclusive but not sufficient for classification)

Specific target organ toxicity (single exposure) : Not classified (Based on available data, the classification criteria are not met)

Specific target organ toxicity (repeated exposure) : May cause damage to organs (kidneys) through prolonged or repeated exposure (oral).

Aspiration hazard : Not classified (Based on available data, the classification criteria are not met)

Potential Adverse human health effects and symptoms : Based on available data, the classification criteria are not met.

Symptoms/injuries after inhalation : Long-term (repeated). Inhalation of mist or aerosol may cause irritation to nose and throat.

Symptoms/injuries after skin contact : Causes skin irritation.

Symptoms/injuries after eye contact : Causes serious eye irritation. Swelling and inflammation.

Symptoms/injuries after ingestion : May be harmful if swallowed. Ingestion may cause nausea and vomiting. Depression of the central nervous system, headaches, dizziness, drowsiness, loss of coordination. In the case of extreme exposure there is a risk of severe metabolic acidosis and haemorrhage. Death in extreme cases. Symptoms may be delayed.

### 12.4. Mobility in soil

No additional information available.

### 12.5. Other adverse effects

Other information : Avoid release to the environment.

### SECTION 13: Disposal considerations

**13.1. Waste treatment methods**

Waste disposal recommendations : Dispose of contents/container to comply with applicable local, national and international regulations. Liquid product may not be disposed of with household waste or landfilled. Do not allow to enter into drains/waters or in the soil. Do not re-use empty containers. Since emptied containers retain product residue, follow label warnings even after container is emptied. Dispose in a safe manner in accordance with local/national regulations. Dispose of at an licensed site.

Additional information : Do not pressurize, cut, weld, braze, solder, drill, grind, or expose containers to flames, sparks, heat, or other potential ignition sources. Empty container retains product residue.

Ecology - waste materials : Prevent contamination of soil, drains and surface waters. Avoid release to the environment.

### SECTION 14: Transport information

In accordance with ADR / RID / IMDG / IATA / ADN

**14.1. UN number**

Not applicable

**14.2. UN proper shipping name**

Not applicable

**14.3. Additional information**

Other information : RQ value – Refer to section 15.

- **U.S. - Connecticut** - Hazardous Air Pollutants - HLVs (8 hr)
- **U.S. - Delaware** - Pollutant Discharge Requirements - Reportable Quantities
- **U.S. - Idaho** - Non-Carcinogenics Toxic Air Pollutants - Acceptable Ambient Concentrations
- **U.S. - Idaho** - Non-Carcinogenics Toxic Air Pollutants - Emission Levels (ELs)
- **U.S. - Idaho** - Occupational Exposure Limits - TWAs
- **U.S. - Louisiana** - Reportable Quantity List for Pollutants
- **U.S. - Massachusetts** - Oil & Hazardous Material List - Groundwater Reportable Concentration - Reporting Category 1
- **U.S. - Massachusetts** - Oil & Hazardous Material List - Groundwater Reportable Concentration - Reporting Category 2
- **U.S. - Massachusetts** - Oil & Hazardous Material List - Reportable Quantity
- **U.S. - Massachusetts** - Oil & Hazardous Material List - Soil Reportable Concentration - Reporting Category 1
- **U.S. - Massachusetts** - Oil & Hazardous Material List - Soil Reportable Concentration - Reporting Category 2
- **U.S. - Massachusetts** - Right To Know List
- **U.S. - Massachusetts** - Toxics Use Reduction Act
- **U.S. - Michigan** - Occupational Exposure Limits - Ceilings
- **U.S. - Michigan** - Polluting Materials List
- **U.S. - Minnesota** - Chemicals of High Concern
- **U.S. - Minnesota** - Hazardous Substance List
- **U.S. - Minnesota** - Permissible Exposure Limits - Ceilings
- **U.S. - New Jersey** - Discharge Prevention - List of Hazardous Substances
- **U.S. - New Jersey** - Right to Know Hazardous Substance List
- **U.S. - New Jersey** - Special Health Hazards Substances List
- **U.S. - New York** - Occupational Exposure Limits - TWAs
- **U.S. - New York** - Reporting of Releases Part 597 - List of Hazardous Substances
- **U.S. - North Dakota** - Air Pollutants - Guideline Concentrations - 1-Hour
- **U.S. - Oregon** - Permissible Exposure Limits - TWAs
- **U.S. - Pennsylvania** - RTK (Right to Know) - Environmental Hazard List
- **U.S. - Pennsylvania** - RTK (Right to Know) List
- **U.S. - Rhode Island** - Air Toxics - Acceptable Ambient Levels - 1-Hour
- **U.S. - Rhode Island** - Air Toxics - Acceptable Ambient Levels - Annual
- **U.S. - South Carolina** - Toxic Air Pollutants - Maximum Allowable Concentrations
- **U.S. - South Carolina** - Toxic Air Pollutants - Pollutant Categories
- **U.S. - Tennessee** - Occupational Exposure Limits - Ceilings
- **U.S. - Texas** - Effects Screening Levels - Long Term
- **U.S. - Texas** - Effects Screening Levels - Short Term
- **U.S. - Vermont** - Permissible Exposure Limits - Ceilings
- **U.S. - Washington** - Permissible Exposure Limits - Ceilings
- **U.S. - Wisconsin** - Hazardous Air Contaminants - All Sources - Emissions From Stack Heights 25 Feet to Less Than 40 Feet
- **U.S. - Wisconsin** - Hazardous Air Contaminants - All Sources - Emissions From Stack Heights 40 Feet to Less Than 75 Feet
- **U.S. - Wisconsin** - Hazardous Air Contaminants - All Sources - Emissions From Stack Heights 75 Feet or Greater
- **U.S. - Wisconsin** - Hazardous Air Contaminants - All Sources - Emissions From Stack Heights Less Than 25 Feet
SECTION 16: Other information

Other information : None.
