You already know about the quality of John Deere riding lawn equipment. Whether it's a Select Series or Signature Series lawn and garden tractor, a S240 Sport or 100 Series tractor, or the Residential ZTrak™ line of zero-turn-radius mowers, we pride ourselves on making lawn equipment that delivers superior mowing performance, season after season.

But our riding lawn equipment does much more than mow. Versatility is built into every machine, especially when you look at our premium line of Select Series and Signature Series tractors. With features like hydraulic clutch PTOs and thick C-channel steel frames, they have the power and backbone to take on serious implements like tillers, tractor shovels, and snow blowers. You'll find plenty of attachment options for all our riding equipment, from bumpers to baggers, tow carts to tractor covers.

And when you decide on the implement or attachment you want, call your local John Deere dealer. John Deere dealers are people who are in touch with your local community, who understand what it takes to maintain your land. Their factory-trained service and parts professionals ensure that your equipment keeps working as hard as you do.

18 Wheel Weights

Weights for front wheels are recommended with rear grass baggers on slopes and may be required with heavy rear-mounted equipment. Rear weights are recommended for additional traction, especially with snow blowers, front blades, and tillers. Some applications require drilling two holes in wheel rim to mount the weight. Contact dealer for the right combination of weights and mounting hardware for your tractor and attachments.
