

## **Wash Port Operating Instructions**

1. Park vehicle safely.
2. Attach a garden hose with quick-coupler to wash port on mower deck. Turn water on.
3. Lower mower deck to minimum cutting height for best results.
4. Start engine. Push throttle lever to full throttle position.
5. Engage mower blades.
6. Flush water under deck for approximately one minute.
7. Disengage mower blades.
8. Raise mower deck to desired cutting height.
9. Pull throttle lever to slow or idle position. Stop engine.
10. Turn water off and remove garden hose from wash port.
